

Nordic & Swedish Footvolley Champion 2025!

But what is this "achievement" worth? —right now, it's worth nothing.

2025 marks one of the darkest chapters in modern human history.

For 22 months now, the ongoing genocide and ethnic cleansing of Palestinians by Zionists of the Apartheid State of Israel—supported by the United States, the European Union, and several Arab oil states—have continued unabated.

Just a few days ago, Suleiman Al-Obeid, a star of the Palestinian national football team, was shot in the head while waiting for aid in Rafah. Murdered while standing in a bread line—searching for something to feed his family so they wouldn't starve to death.

The Footvolley player Yiannis Tsiouris from Footvolley Athens (@footvolley.athens) was not only harassed but also received death threats directed at him and his family after a post on Instagram, July 15, 2025, in which he simply stated that he stands with humanity.

These threats came from pro-genocide Zionists—many of them Footvolley players themselves—supported and protected by the Israeli Footvolley Community and its partners, including the EFVL (European Footvolley League).

My anger is also directed toward the global Footvolley Community, where ALMOST no one has dared to speak up or take a CLEAR stand AGAINST these atrocities—actions celebrated by Zionists, the Footvolley players of Israel, the former IDF soldiers and their "genocidal gangs" who cheer on the murder and rape of children and women in Occupied Palestine.

Footvolley in the EU is currently the most "Pro-Genocidal" Sport on Earth

Footvolley in Europe has, unfortunately, become the most pro-genocidal sport on Earth—second only to the IDF's "sport" of sniping children and raping women in Gaza. This is largely due to a spineless Footvolley Community that allowed the Zionist Propaganda Machine to infiltrate our sport.

Futevôlei, once born in Brazil—by and for the poor, the oppressed, and the marginalized—bringing peace, joy, and unity across classes—has been hijacked.

Now, this beautiful sport is being stained with children's blood by the involvement of the Israeli apartheid regime, the EU, and even some of the world's top Brazilian Footvolley players, who knowingly and "unknowingly" contribute to the sport's association with atrocities.

Mark my words—this is happening right now! And people won't forget that this sport is becoming connected with "children's blood money," funnelled through former IDF soldiers who now play Footvolley under the banner of the Israel Footvolley Association/Federation.

This is really disturbing to me because I love the true sport of origin, Futevôlei. And yes—there are still a FEW players who have stood up against this genocidal machine Israel, who dare to speak out and who want to play in a Humane Footvolley Community.

But when Israeli Footvolley players and their community openly share hateful, violent messages and threaten a Greek Footvolley player and his family with death and rape—without any consequences—and are actively backed and protected by both the Israel and European Footvolley communities, I must make my position absolutely clear: I want to take our sport of origin back!

The messages below, sent via Instagram DM, are just a small collection—JUST A FRACTION—of the messages sent to @footvolley.athens (Yiannis Tsiouris) after his post for humanity, which he posted on his Instagram on the 15th of Jul, 2025.

Yuval Aharfi from labola_ftvschool: Go fuck yourself you are one piece of shit. You need to die!

Yinon Amir: Fuck you, Fuck your Family and wish that your kids will be raped by terrorists like you... Continuing in Hebrew: "You disgusting one, you son of a whore, may they rape your mother. May they do a Holocaust to you. Son of a whore. May they rape your whore mother, you are disgusting."

FTV Player @lidorfrank14: You are fucking dead! From now on you are in trouble, no jew will support you anymore, if you are all for them, go and live in Gaza and inshallah they will rape you there. Fuck you. You are fucking dead.

Another: Hi you piece of shit, don't you ever forget Am Israel Chai, And you can't do anything about it you Nazi supporter, I hope a Turk rapes and kills your sister and mother! And that it will all be on video for you to see it! Your scum of the earth! Mossad is on to you! Soon!

FTV Player @Shaulinbal7: And I recommend you to open a new instagram account. This one is going to be like people in Palestine, DEAD. I have my people in Greece that can help me cut down your business a legal way, you fucking pig!

@Shahaflavi512 from Shahaf Lavi organic cosmetics: We understand that you want to come to Israel, if we see you in Israel we will kill you! Don't go near the state of Israel you anti-semite. We will murder you like the children in Gaza!

...this goes on and on, and obviously, many of these threats come from Footvolley players within the Israel Footvolley Association, its community, and its "pro-genocidal Zionist gangs." No actions have been taken by the so-called "one big Footvolley family in Europe" to protect a "friend," a "person" who stands with humanity. Instead, they follow orders from the "top players" in Israel like Ron Ben Ishai (@ronbenishai.ftv) and bend over to the Zionist regime's instructions to crush and punish this individual—Yiannis Tsiouris and @footvolley.athens.

In what world of sport, organization, or community are you allowed to harass, smear, and threaten someone and their family with death and rape—without any repercussions?

Well, in the EU Footvolley Community, apparently!?

Imagine if this were reversed? Someone threatening one of the FTV players within the Israel Footvolley Association? Well, you can just imagine...

—Where is the moral compass of the Footvolley Players?!

—Where is humanity?

—Are there only spineless cowards left out there?

Once again:

I just want to make it absolutely clear that I personally strongly condemn the atrocities of the Zionist terrorist regime of the illegal state of Israel and its ongoing genocide in Gaza. And I take a clear stand against anyone—ANYONE—who supports, promotes, or ENABLES this ongoing genocide, ethnic cleansing, and starvation in Gaza (or similar actions worldwide), and the horrendous slaughtering and murdering of mostly children and women all over occupied Palestine since 1945, starting with the Zionist military blueprint "Plan Dalet," followed by the Nakba of 1948, and their terrorist actions until today.

I do not only feel extreme sorrow for the Palestinian people, the Muslims and Christians suffering in the region, but also for the "true" Semitic Jews of the Torah, who have always supported Palestine and its people. It is very important to understand that there is an incomparable difference between the Zionists and the "true" Jews! I'm certain that most people in the FTV community do not know enough about the differences... which is a MUST today!

Final

Finally, after years of training, time, and dedication, I've achieved the title of Swedish Footvolley Champion 2025. But what is it worth if the sport itself is poisoned by people who either support—or are too afraid to speak out against—the murder of children? By standing with, being silent or enabling the Zionist apartheid state of Israel and its IDF soldiers who use Footvolley as a propaganda tool, we become complicit in genocide.

Still, I hold hope. I believe more people will find the courage to speak out. And if this sport is to survive—it will be inevitable to speak out sooner rather than later!

So yes, on paper, I may represent Sweden in Footvolley in the future. But my heart and soul will always, ALWAYS, represent Palestine.

From now on, I play for the murdered children who never got a chance to live, to play, to dream. I play for the athletes murdered by the Zionist regime of Israel—an apartheid state committing genocide right now, in front of the eyes of the entire world, in real time.

#FREEMPALESTINE

P.S.

I think it is also very important to understand—and absolutely crucial to ditch—the belief in the phrase "do not mix sports with politics," at least as long as it is systematically used by, and in favor of the Zionists in order for them to be able to kill even more children, women, and sportsmen without "putting themselves directly in the spotlight" during sporting events around the world—without any consequences or accountability!
